Come to the AVOturboworld shop for all your automotive lifestyle needs! With a crew of professional mechanics, in-house 2 and 4wd dynocharger, and 30+ years of turbocharging experience, we have what you need. From brake systems and gearboxes to building record-setting race cars, we've done it all.

Our 4-wheel Dynamic Test System Dynamometer can measure and log a wide variety of engine performance parameters. And we have the professional staff to ensure you get everything from your car.

Also in our shop:

- Injector cleaning and testing
- Turbo balancing and overhaul services
- Engine Dynamometer for big engine builds
- Fabrication and engineering facilities

We have decades of experience with stand-alone engine management systems, ECU re-flash systems, and other engine tuning software. Whatever your need, whatever your problems, we have the staff and equipment to provide the complete solution!
